# ABOUT US

In 2021 I was given the opportunity to start my own superyacht supply company. With a small team, we spent six months reflecting on all that we had learned from 7 years at sea and in the supply chain. We came to realise that the short-term approach of some yacht supply companies was hurting the industry. It was time for a new way of working!

We believe that our clients and suppliers are equally important. We value our long-term relationships that are built on trust and honesty and will even recommend other products over the range we offer, if that means you could get a better outcome- we know what we're good at! With every enquiry, we will present you with several product options depending on your requirements so you can make the best operational and financial decisions for you and the yacht.

Our satisfaction comes from supplying you with the finest deck equipment from industry leading suppliers and our own bespoke products division.

If the product you are looking for is not listed in our brochure or on our website, the chances are we can still supply it.

We look forward to working with you!

# WHY USE POLARIS YACHT SUPPLY?

## EXPERIENCE

Unlike other supply companies, we have first-hand experience working onboard superyachts, so we understand your lingo and understand your budget and/or time constraints.

## EFFICIENCY

Your project management teams and/ or build crew are likely to be tight on time. By using Polaris Yacht Supply for your product sourcing, you can allow more time to focus on other areas.

## CONSOLIDATION

Instead of sourcing each product from each individual supplier, we will source and supply all your deck equipment and deliver it all in one consignment. This way you can save time searching for products whilst reducing costs and being environmentally friendly with shipping.

# WHAT CAN WE OFFER?

**The finest  
deck  
equipment**

PROCUREMENT**

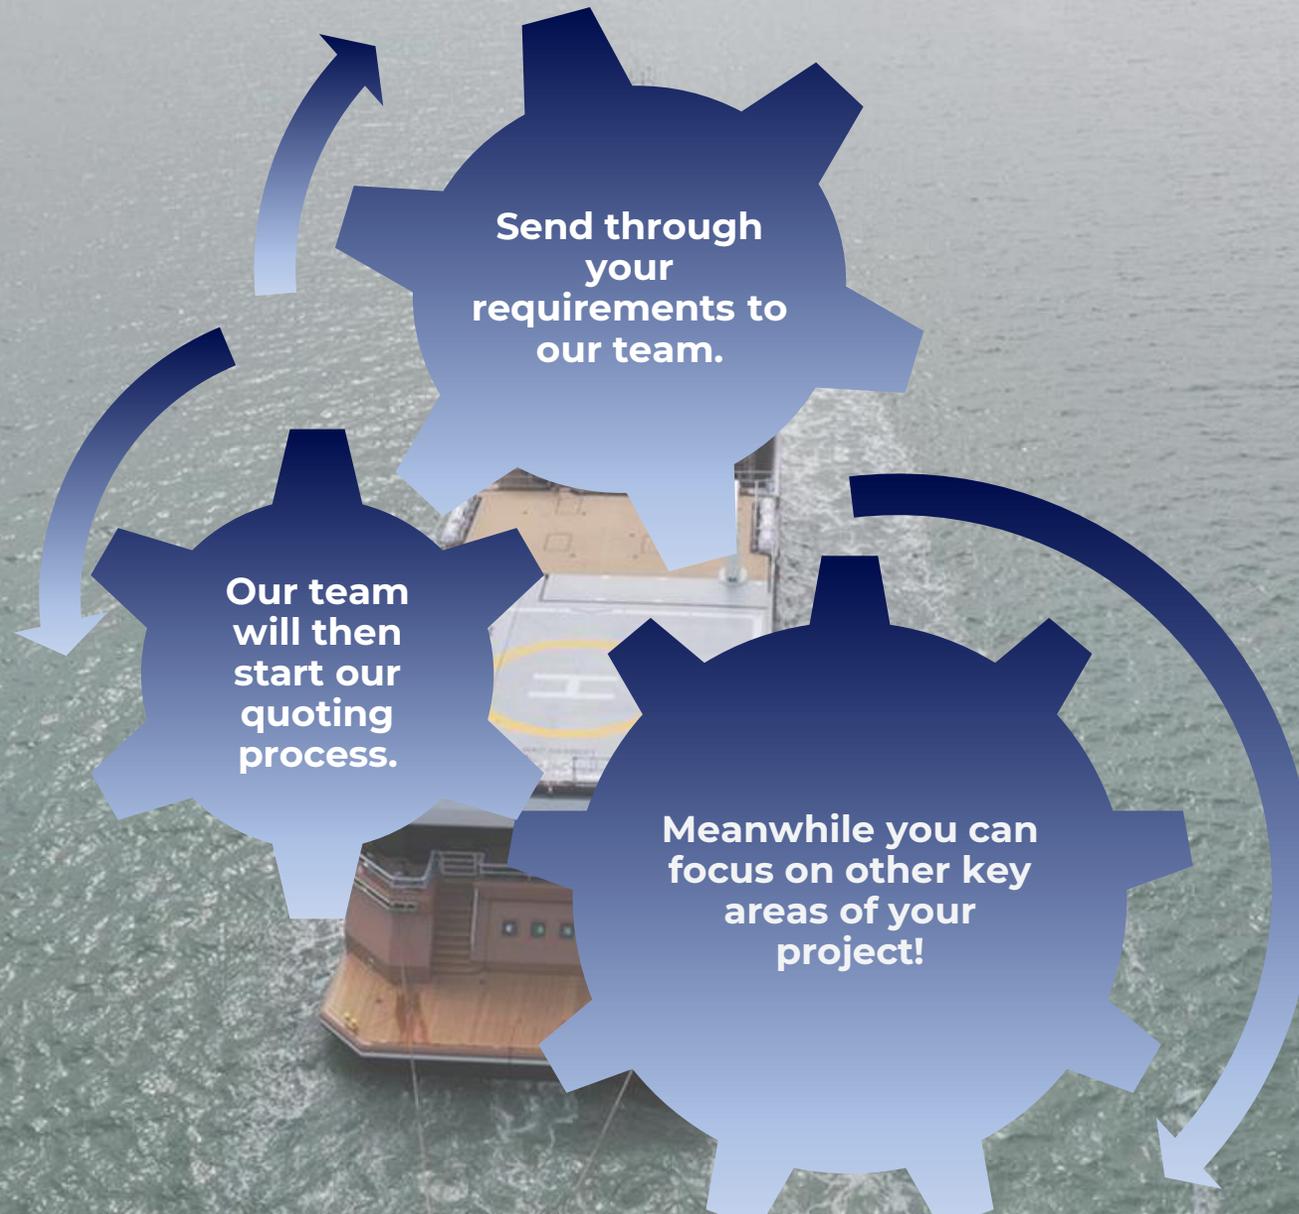

**YOUR NEW  
BUILD PROJECT**

**WORLDWIDE  
DELIVERY**

# GET THE WHEELS IN MOTION

# TESTIMONIALS

***“We were assigned a new build project and chose to Polaris Yacht Supply as our option to supply all deck lines, fenders, fender covers, custom hooks as well as pumps and other items.***

***The communication between myself, the shipyard, and Adam from Polaris Yacht Supply were on point, asking all the relevant questions to get things done as quickly and as smoothly as possible, even during the current tough times of covid supply chains and the demand to get the boat delivered on time, PYS delivered.***

***We are very happy with the final products and would have no hesitation recommending or working again with Polaris Yacht Supply.”***

*Captain, New Build 40m+  
Northern Europe Shipyard*
