ABOUT US

In 2021 I was given the opportunity to start my own superyacht supply company. With a small team, we spent six months reflecting on all that we had learned from 7 years at sea and in the supply chain. We came to realise that the short-term approach of some yacht supply companies was hurting the industry. It was time for a new way of working!

We believe that our clients and suppliers are equally important. We value our long-term relationships that are built on trust and honesty and will even recommend other products over the range we offer, if that means you could get a better outcome- we know what we're good at! With every enquiry, we will present you with several product options depending on your requirements so you can make the best operational and financial decisions for you and the yacht.

Our satisfaction comes from supplying you with the finest deck equipment from industry leading suppliers and our own bespoke products division.
If the product you are looking for is not listed in our brochure or on our website, the chances are we can still supply it.

We look forward to working with you!

CARBON FIBRE SWIM LADDERS

Our carbon fibre swim ladders are perfectly suited to your beach club or swim platform.

Each swim ladder is fabricated from 2x2 twill pre-preg carbon fibre and then autoclave cured for maximum strength and stiffness whilst keeping weight to a minimum.

Every step has a recessed teak tread providing a seamless transition from deck to water. All metallic fittings used are either CNC machined from 316 stainless steel or titanium depending on your preference.

At a glance

- Autoclave cured 2x2 twill carbon structure.
- 316 Stainless steel or titanium CNC machine fittings.
- Recessed teak Steps.
- Weight from only 14kg!
- Available in three styles depending on your preference.

TENDER MOORING WHIPS

The original superyacht tender mooring whip, tried and tested on countless superyachts worldwide!

Manufactured from glass fibre with a painted finish, our tender mooring whips have been designed with the crew in mind.

Easy to use Schaefer cleats along with a simple yet effective whip line system will keep your tender or chase boat at a safe and secure distance from the yacht.

At a glance

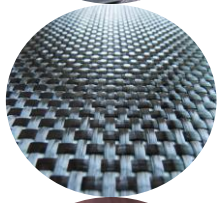
- Perfect for both tenders and jet skis.
- Available for worldwide delivery!
- 4.2m or 4.8m sizes available
- Suitable for all sizes of tender and chase boat
- Mooring Whip kits with stainless stee flush bases are also available.

BESPOKE PRODUCTS

Our team have years of experience in manufacturing and project managing bespoke projects for operational and new build yachts from 30m to 100m+.

With a team of product designers focussing on the initial and render phase through to our highly skilled craftsmen manufacturing the project from either stainless steel, aluminium, composites or wood, no project is too small for us!

We use a small but efficient 6-phase process which will take you through from initial brief to delivery, ensuring the project meets your exact requirements.



At a glance

- A team of product designers ready to bring your idea to life.
- Our highly skilled craftsmen ready to make that design a reality.
- And all overseen by the Bespoke Projects division at Polaris Yacht Supply.

You have control!

INFLATABLE FENDERS

We offer a range of inflatable fenders from leading industry manufacturers at the best prices.

Whether you are looking for a HDPVC, Polyurethane (PU) or Hypalon inflatable fender, we offer unbiased professional advice on our entire range of inflatable fenders, allowing you to choose which product works for you.

Within our range, we can customise your fendering solution to meet your requirements with a range of colours, sizes and attachment points available.

At a glance

- **HDPVC** – Highly cost effective with hot air welded seams.
- **PU** – Extreme heavy duty, suitable for 80m+ yachts.
- **Hypalon** – Highly durable fenders that are built to last.
- A range of colours available.
- Why not make it a package and include a new set of fender covers?

FENDER COVERS

We've got you covered!

With either neoprene or acrylic wool materials available, we are sure to provide you with the optimum solution. Acrylic wool fender covers are the most cost-effective yet highly durable solution we have. Neoprene fender covers offer a tight fit offering a smooth finish and slightly better protection to your topsides.

Why not make it a package and purchase new inflatable fenders at the same time?

At a glance

- Acrylic wool or neoprene.
- A range of colours available.
- Manufactured to fit all industry sized fenders.
- Print personalisation available on request.

FENDER HOOKS

Our fender hooks are designed and manufactured in the UK to your exact specifications and available for worldwide delivery.

Manufactured from a 316 stainless-steel core. We use marine leather to cover the outside providing a timeless look with little to no maintenance required. Natural sheepskin covers the underside, providing the utmost protection to your painted or varnished cap rail or bulwark. We only use mirror polished 316 stainless-steel hardware providing a long-lasting product.

At a glance

- Manufactured to fit your exact dimensions.
- Leather colours include grey, black, navy, tan, red, or burgundy.
- Natural white or black sheepskin.
- Hardware options available on request.

Templating

Please contact us for a templating kit. Alternatively, one of our team can visit your yacht to discuss a solution.

TENDER LIFTING SLINGS

Our bespoke superyacht tender lifting slings are manufactured in the UK from the highest quality materials

Each lifting sling comes with its own certificate of conformity and is tested prior to delivery to ensure they are the correct lengths and have not been over stretched during the manufacturing process. Furthermore, all our tender lifting slings can be certified for man-riding and for rescue purposes if required.

Whether you are changing your tender onboard or would like a new set of slings, no project is too small for us!

At a glance

- Manufactured to suit your exact requirements ✓
- Choose between webbing or dyneema ✓
- To suit all sizes of tender ✓
- Certificate of conformity ✓
- Man-riding and rescue tender slings ✓

JET SKI LIFTING KITS

The safest and most efficient method for launching and recovering your jet skis.

A unique system offering single point lifting for even the largest of jet skis with a SWL of 700kg. 316 stainless steel hardware is used along with polyester webbing straps which are all manufactured to EU safety standard (EN 1492-1:2000+A:2008).

The straps are securely attached to the jet ski via easy-to-use quick release fittings and have been designed for prevent the lifting kit from slipping off when in use.

At a glance

- Can be fitted on new jet skis or retrofitted by crew onboard.
- Safe working load (SWL) of 700kg.
- Fully certified and approved certification accepted by flag state.

DECK PROCUREMENT

We will source any deck product you require onboard.

With a global network of trusted suppliers at our fingertips, we can source any deck product you require from washdown products to paints, teak scrub machines, sealants, rope, power tools and more.

Whether you have a growing list onboard or are after a specific item, send it through and one of our team will provide you with quotes and lead times.

We have suppliers within the EU that can ship directly to your location meaning you don't have to worry about import duties or taxes!

At a glance

- Washdown products ✓
- Deck consumables ✓
- Paints and sealants ✓
- Power tools ✓
- Rope ✓
- Teak scrub machines ✓
- And more... ✓

SAFETY & WORKING ALOFT

Keeping your crew safe is top priority!

We offer a comprehensive range of life saving appliances (LSA) and working aloft equipment for superyachts and tenders to ensure the safety of your crew and for you to comply with class or MCA requirements.

From helmets and harnesses to lifejackets, liferafts and immersion suits from the leading manufacturers in the yachting and climbing industry, we can supply you with all the equipment you need to operate safely afloat and aloft.

At a glance

MOORING LINES

Are you after a replacement mooring line or a complete new set?

We offer professional advice on all different types of mooring line that will suit your size of yacht and application. Our mooring lines are manufactured for optimal performance, even in the most adverse weather conditions.

Our range includes:

- Braid on braid superyacht mooring lines.
- Towing lines.
- Fender lines.
- Heaving lines.
- And more...

At a glance

- Mooring lines manufactured to suit your yacht.
- Designed to withstand the harshest of conditions.
- Its not just mooring lines we supply!

CHAFE GUARDS

A range of chafe guards designed to protect your paintwork and mooring lines from chafe.
Our sacrificial chafe guards are designed and manufactured to prevent your mooring line from either chafing on the dock or chafing on your paintwork.

We have three options available depending on the application with a variety of colours available.

At a glance

- **Shearling –** The ultimate chafe guard for gel coat and painted topsides.
- **Ballistic -** Highly durable and hardwearing, designed to withstand the harshest of environments.
- **Acrylic –** The most cost effective yet highly capable chafe guard. It is UV resistant and protects both gel coat and painted topsides.

TESTIMONIALS

"I was very happy to work with Polaris Yacht Supply, their level of service is absolutely excellent! Quick to respond, provided all the information I needed and more, and were helpful all the way through the ordering process right up to my order was delivered. I highly recommend Polaris Yacht Supply and will certainly work with them again!"

Captain, MY Nati Tre

"I wanted to say a huge thank you to you and the team at Polaris Yacht Supply. You guys shine above the rest, particularly with noticeable extra effort and care."

2nd Officer, MY Vibrant Curiosity

"Thank you to Adam and the team at Polaris Yacht Supply for their outstanding service. They were quick and efficient with all our requests and sourced everything we needed!"

Chief Officer, MY Constance
